Acoustimac
Limited Warranty and Store Policy:
At Acoustimac, we pride ourselves on making the best products out of the best materials available and we strive on providing our customers with the best level of service possible. To guarantee your satisfaction we inspect every item we sell carefully before it is shipped. However we do understand that things happen during transit. If any item you bought arrived damaged, you must report it to us by email no later than 5 days of receiving it. We will be glad to get an insurance claim initiated on your behalf and we will send you a replacement at no cost to you, upon the completion of the claim investigation. Insurance claim process takes 6 to 14 business days to be completed.

Acoustimac wants you to be 100% satisfied with your purchase. Returns are accepted for any reason within 30 days of purchase. The following rules will apply:

1. You will need to contact us in writing to get a return approval.
2. Dry materials such as Acoustic Insulation, Acoustic fabric, frames...are refundable with a 30% restocking fee plus original shipping cost. Insulation orders totaling $200 or more are not returnable.
3. All returned goods must be sent back to us in the exact condition we sent them to you.
4. Merchandise needs to have complete packaging and all accessories it came with.
5. You will be responsible for the shipping cost to return unwanted merchandise.
6. A replacement could be sent of the same kind if we deem it acceptable. Buyer is responsible for all shipping costs.
7. On finished products (other than custom sizes, custom fabrics, art panels...) A refund may be issued less a 20% restocking fee and the original shipping charge.
8. Custom made panels requiring custom sizes, custom fabrics and art panels are non-refundable once production on them has begun.
9. White color acoustic panels are not refundable or returnable due to their delicate nature.

All of our acoustic panels come with a 1 year limited warranty. We will replace any panel that becomes defective within 1 year of purchase. We will require the defective product to be sent to us for inspection.

Warranty will not cover damages caused by misuse, abuse or improper installation. We will not be held liable for injuries of any kind resulting from the use of any of our products. Acoustimac products are not to be used outdoors. Such use will void the warranty.

Thank you for choosing Acoustimac.

1. Attach Z-clips to the panel by driving screws through the wooden backing. Ensure raised side is facing down.

2. Z-Clip to Panel Installation

STEP 1:
Attach clips to top of panel as shown by driving screws through the panel backing. No pilot holes are present so you'll need to drive them in, but do not overtighten.

STEP 2:
Measure the distance between the clips you installed. Use a bubble level while the panel is standing on a level surface to ensure the clips are straight and level.

FOR HORIZONTAL OR DiAGONAL MOUNT

Follow the same instructions, only install clips to panel following your desired angle.

Be sure to measure the distance and check your work with a bubble level.

WALL

3. Z-Clip to wall Installation

INSTALL TO WALL

Attach your Z-clips to the wall following the same spacing as the clips you just installed onto the back of the panel.

Raised sides on Z-clips going on the wall should all be facing up.

Slide panel down on clips to attach to wall. Then use bubble level to check your work.

FOR INSTALLATIONS ON CONCRETE OR CINDER BLOCK.

You can directly power-drive specialized concrete screws into the wall, or drill holes and use standard concrete screws and plastic expanders.
